

# **Adjustable Latches**

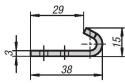

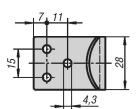

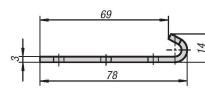

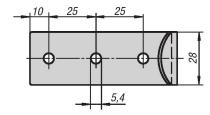

### Material:

Steel or stainless steel 1.4301

# Type:

Galvanized and blue chromate. stainless steel natural finish.

## **Part Number Example:**

Latch K0051.1611451 Catch plate K0051.9143381

#### Note

Adjustable latches are safe locking systems for industrial applications. By exceeding the dead center they resist vibration.

After the bail engages with the catch plate, by pushing the lever down the parts to be locked can be drawn together by up to 15 mm. To compensate for tolerances or to create enough tension the bail length can be adjusted using the M8 spindle.

The latches can be screwed down or riveted.

Order the required catch plate version separately.

The retaining force F1 applies to the latch, not the catch plate.

## On request:

Lockable version with padlock bracket.
